

David Egbuna

Aspiring IT Professional | Computer Systems Technology

+1 (437) 260-4108 | egbunadavid201@gmail.com | Toronto, ON | github.com/Adderql | linkedin.com/in/david-egbuna

2nd year Computer Systems Technology student with over a year of hands-on customer service and IT support experience. Known for clear, professional communication with users of all technical backgrounds — translating complex issues into simple, actionable guidance. Skilled in technical troubleshooting, networking, and practical hardware support. Demonstrates strong attention to detail, reliability, and a customer-first approach. Seeking opportunities where communication, problem-solving, and technical curiosity can drive excellent customer experiences.

AREAS OF EXPERTISE

Customer Service • Technical Troubleshooting • Clear Communication • Ticket Management • Multi-channel Support • Windows & Linux Administration • Active Directory • Microsoft 365 • AI-Assisted Tools • Documentation • Problem Solving • Remote Support • Attention to Detail • Team Collaboration

PROJECTS

AI Screen Capture Assistant | *Python, Grok API* 2026 – Present
– Building a desktop tool using the Grok API for real-time screen analysis — developing hands-on experience with AI-assisted tools and practical automation.

PROFESSIONAL EXPERIENCE

Customer Support Agent / IT Support 2023 – 2024
Cloud 9 IT Support *Lagos, Nigeria*
– Served as first point of contact for all inbound technical issues via phone and remote support channels, consistently delivering prompt and professional responses.
– Diagnosed and resolved hardware and software issues across Windows environments including application errors, connectivity problems, and device configuration.
– Guided users through device setup, onboarding, and troubleshooting steps, translating complex technical information into clear, simple instructions.
– Logged, tracked, and updated support tickets in internal tracking systems, ensuring accurate documentation and timely resolution.
– Coordinated with internal teams to escalate complex issues and followed up to ensure full resolution on every case.

Library Assistant / IT Support 2021 – 2022
Emerald High College *Lagos, Nigeria*
– Provided front-desk technical support, resolving hardware, software, and printer issues for staff and students.
– Responded to inquiries in a friendly and timely manner, directing users to appropriate resources and services.
– Maintained accurate records and organized documentation for IT equipment and library systems.

Web Development Intern 2022
Monospace Ng *Lagos, Nigeria*
– Supported software testing and contributed to development workflows, gaining exposure to version control and professional team collaboration.
